

12 Ton Combi

Vehicle specifications

| | |
|--------------------|-----------------------|
| High pressure pump | 150 L/min – 200 bar |
| Vacuum pump | 700 m ³ /h |
| Water tank | 1000 L |
| Slurry tank | 3070 L |

ADVANTAGES:

- High pressure pump mounted between cabin and tank, frost protected
- Plenty of storage space for drain cleaning machine, TV inspection system, etc.
- Good road traveling due to low centre of gravity
- Longevity due high quality
- Modern, ergonomic design
- Payload approx. 4'000 kg, due to light weight design
